# Integrative & Comparative Biology

Volume 62 Number 4 October 2022

[academic.oup.com/icb](http://academic.oup.com/icb)

*Integrative and Comparative Biology (ICB)* publishes high-impact, peer-reviewed articles in integrative, comparative and organismal biology. Many papers communicate the proceedings of symposia and other events at the annual meeting of the Society for Integrative and Comparative Biology. However, we also publish forward-looking review, synthesis, perspectives and empirical articles selected by the editorial board. More information about this second category of papers is available at: [https://academic.oup.com/icb/pages/direct\\_submission](https://academic.oup.com/icb/pages/direct_submission).
